dasjathartha@gmail.com

As a fresh graduate, I am a motivated and enthusiastic individual ready to embark on a rewarding career. Armed with a solid educational background and a passion for learning, I am eager to apply my knowledge and skills to contribute to a dynamic and innovative work environment.

EDUCATION

B.Tech, Electronics and Computer Engineering   Sep 2021 - Sep 2025
Vellore Institute of Technology,Chennai; India
CGPA: 8.59

12TH   Apr 2019 - Jun 2021
Mother's Public School, Bhubaneswar,India
94.8%

10TH   Jun 2014 - May 2019
Mother's Public School, Bhubaneswar,India
93.2%

PROJECTS

ChatGPT Clone Android App (03/2023 - 05/2023)
The ChatGPT clone Android app is designed to provide users with personalized responses to their queries. It uses Open-AI API to understand user input.

AI Image Generation MERN APP (06/2023 - Present)
AI Image Generation app developed using MERN stack and OpenAI API. Uses MongoDB for efficient data storage, Express.js for server-side logic, and React.js for a dynamic user interface. Integrated with OpenAI API to leverage state-of-the-art machine learning.

Phishing URL Detection using Machine Learning(05/2023-07/2023)
The phishing URL detection project using Python and Flask involves building a web application that uses machine learning to identify and classify suspicious URLs.

Stock Market Price Analysis and Prediction Using R-Programming(06/2023-07/2023)
The Stock Market Price Analysis and Prediction project using R programming involved using statistical and machine learning techniques to analyze historical stock market data and make predictions about future stock prices.

EXPERIENCE

NATIONAL INFORMATICS CENTRE(NIC)- (08/2023-10/2023)
As a **Project Intern** at NIC (National Informatics Centre), I contributed to the development of web pages, primarily focusing on front-end design and functionality. During my internship at NIC, I had the opportunity to work on website development project, enhancing user experiences through responsive and visually appealing interfaces. Additionally, I gained exposure to data science concepts, which allowed me to contribute to data-driven aspects of the projects to some extent.

SKILLS

Intermediate in: HTML&CSS, Javascript, Data Structures and Algorithms,Java,C

Basic in: React, Android Studio, React Native,R programming,Python,Flask,Data Analytics,MySQL

LICENSES & CERTIFICATIONS

Introduction to Machine Learning on AWS   2023
Amazon Web Services(Coursera)

Introduction to Artificial Intelligence (AI)   2023
IBM(Coursera)

Introduction to Android Mobile Application Development   2023
META(Coursera)

Problem Solving Skills(Basic)   *2023*
Hackerrank

Java Programming Language   *2023*
